

Bellyrubs Organic

June, 2007

Greetings from Scottsdale and I want to tell all of you how I appreciate your continued support of Bellyrubs Organic LLC line of products. On one hand I want to thank all of you for your continued support of our made in America line of products and at the same time express to each of you how sorry I am if you experienced a loss due to the recall of some other companies products. As a child I was taught that by the grace of God go I and I truly believe that is true in everything we do. I do not think these companies intentionally offered a product that they knew would harm an animal but rather did their best.

With the recall of so many other companies products I have seen a dramatic increase in my sales which has proven to be a double edged sword. On one hand it is great but on the other my supplies have been stretched to the limit and beyond in some cases. I anticipate by mid July to be back on track with increased production capabilities. I want to thank all of you who have worked with me during this time. You know who you are and I consider you true friends.

There are many things we have done right but there is always room for improvement and please look for some exciting new concepts coming your way in the month of July. I want to focus on more education for the store owners and thus for your customers as well. Now that people are reading labels lets learn what to look for and explain why the best is the best. It has been wrong for me to assume that everyone knows what to look for. I love the fact that just like a tide that raises all ships we will all benefit from better quality products. I wish you all good health, prosperity and a life filled with joy.
